Inspection Certificate

Abnahmeprüfungszeugnis DIN EN 10204.3.1
Certificat De reception
Certificado di collaudo
Keuringsrapport

Batch Number	**211007**	**Product Name**	Bycotest C10 Aerosol
Date of Manufacture	21/10/2021	**B.B.E.**	10/2024

Specification: Test Results

Sulphur and Halogen levels according to ASME B&PV Code Section V & EN ISO 3452-2.

Test	Section	Limit	Result
Halogen Content	6.12 in EN ISO 3452-2	<200 ppm	43
Appearance	6.1 in EN ISO 3452-2	Equal to	Passed
Sulphur Content	6.12 in EN ISO 3452-2	<200ppm	4

--- EOR ---

Notes:

1. Our batch number appears on the label of bulk containers. Aerosols have batch numbers printed on bottom of the container. Bulk materials have a minimum shelf life of 5 years from date of manufacture. Aerosols have a minimum shelf life of 3 years from date of manufacture.
2. Most specifications require test results stated in percent, but some require parts per million (ppm). To convert "percent" figures to "parts per million" move the decimal four places to the right.
3. MIL-STD-271, MIL-STD-2132 and ASME Sec V, all require that materials be subject to a procedure to evaporate off volatile solvents before analysis for Sulfur and Halogens. According to these specifications, only those residues higher than 0.005 g/100ml shall be analysed for Sulfur and Halogens. Lower residues shall be reported.
4. The above certification gives the results obtained at the time of manufacture. Age and use may alter the properties of any material.
