

Batch Number	2110528	Product Name	Bycotest BY7000
Date of Manufacture	14/10/2021	B.B.E.	10/2026

Specification: Specification

Specification

We hereby certify that the above material supplied against your order:

A. Was manufactured, in accordance with our standard procedures within the requirements of BS EN ISO 9001 - 2015 for Quality systems.

B. Was subjected to and passed the Quality assurance tests relevant to the described product and meets the requirements of your order.

Specification: Sieve Analysis

Sieve Analysis Graph

Particle Size- 250um		Max 20%	0.02
Particle Size: <90um		Max 15%	9.57
Particle Size (Mean Value Estimated)		160um	Passed
Visual Inspection		Pass	Passed
Function Test		Pass	Passed

Inspection Certificate

Abnahmeprüfungszeugnis DIN EN 10204.3.1

Certificat De reception

Certificado di collaudo

Keuringsrapport

Notes:

1. Our batch number appears on the label of bulk containers. Aerosols have batch numbers printed on bottom of the container. Bulk materials have a minimum shelf life of 5 years from date of manufacture. Aerosols have a minimum shelf life of 3 years from date of manufacture.
2. Most specifications require test results stated in percent, but some require parts per million (ppm). To convert "percent" figures to "parts per million" move the decimal four places to the right.
3. MIL-STD-271, MIL-STD-2132 and ASME Sec V, all require that materials be subject to a procedure to evaporate off volatile solvents before analysis for Sulfur and Halogens. According to these specifications, only those residues higher than 0.005 g/100ml shall be analysed for Sulfur and Halogens. Lower residues shall be reported.
4. The above certification gives the results obtained at the time of manufacture. Age and use may alter the properties of any material.
