

**Inspection Certificate**

Abnahmeprüfungszeugnis DIN EN 10204.3.1  
 Certificat De reception  
 Certificado di collaudo  
 Keuringsrapport

<b>Batch Number</b>	<b>2411029</b>	<b>Product Name</b>	WA-1 Water Conditioner
<b>Date of Manufacture</b>	08/11/2024	<b>B.B.E.</b>	11/2027

**Specification: Test Results:-**

We hereby certify that the above material supplied against your order:

- A. Was manufactured, in accordance with our standard procedures within the requirements of BS EN ISO 9001 - 2015 for Quality systems.
- B. Was subjected to and passed the Quality assurance tests relevant to the described product and meets the requirements of your order.
- C. Meets the requirements of SAE AS4792.

We further certify that this material does not contain mercury as a basic element and no mercury bearing equipment was used in its manufacture.

When tested according to our standard procedures the following results were obtained.

Test	Section	Limit	Result
Surface Wetting (SMT 46)		Equal to standard	Passed
Particle Suspension		Equal to standard	Passed
Fluorescence		Equal to or less than standard	Passed
Corrosive Properties		Equal to standard	Passed
pH (1% Solution)		9 - 10	9.27
Specific Gravity (SMT 29)		1.064 - 1.107 @20 °C	1.082 @20 °C

**Approved by**

**Notes:**

1. Our batch number appears on the label of bulk containers. Aerosols have batch numbers printed on bottom of the container.
2. Most specifications require test results stated in percent, but some require parts per million (ppm). To convert "percent" figures to "parts per million" move the decimal four places to the right.
3. MIL-STD-271, MIL-STD-2132 and ASME Sec V, all require that materials be subject to a procedure to evaporate off volatile solvents before analysis for Sulfur and Halogens. According to these specifications, only those residues higher than 0.005 g/100ml shall be analysed for Sulfur and Halogens. Lower residues shall be reported.
4. The above certification gives the results obtained at the time of manufacture. Age and use may alter the properties of any material.
